

WHAT WE DO

“Achieving excellence every day through teamwork”

Qualidigm is dedicated to assisting health care professionals improve the quality of care delivered to their patients. We work to ensure that our health partners have the knowledge and resources they need to deliver care consistent with best practices.

CORPORATE OVERVIEW

“Its not just about doing things right, its about doing the right things.”

Marcia K. Petrillo, MA
Chief Executive Officer

Qualidigm is a national health care consulting and research company dedicated to improving the quality and safety of health care. We deliver innovative, scientifically based, practical solutions for our private and public sector clients.

OUR VISION

To be the pre-eminent and unbiased resource for those seeking to achieve the best value in health care.

OUR MISSION

To continuously advance improvement in the quality, safety and cost-effectiveness of health care. As a health care consulting and research firm, we apply state-of-the-art techniques in measurement, analysis and process improvement to achieve the best value for each of our clients.

In fulfilling our mission, we:

- Use a collaborative, multi-disciplinary systems approach to analyze clients needs and choices.
- Combine scientifically-based methods, the application of best practices and real-world experience to create a custom fit between client need and *the* best solution.
- Ensure sustainable progress, by helping our clients to adopt and strengthen a culture of innovation and continuous improvement.

CONSULTING SERVICES

EDUCATION

“A nationally recognized consulting company dedicated to improving the quality and safety of health care.”

CONSULTING SERVICES

Q Consulting offers an onsite Quality Assurance program that will meet regulatory requirements and assist facility staff and managers to evaluate and improve performance in a cost effective affordable package.

We are dedicated to assisting health care professionals in improving the quality of care delivered to patients.

Our consulting division, Q Consulting, offers a wide array of services for Long Term Care.

Specializing in:

- MDS 3.0 (Implementation Date 10/1/10)
- Care Planning
- Quality Improvement
- Understanding the QI/QM's and how they relate to quality improvement and public reporting
- Dementia Care
- Implementation of quality improvement in the long term care setting

Our consultants work to ensure that our health partners have the knowledge and resources they need to deliver care that is consistent with best practices.

Let us help you with:

- Implementation of MDS 3.0
- Development and implementation of plans of correction
- Immediate jeopardy situations (returning to compliance)
- Development of a Comprehensive Quality Improvement program including dash boards
- Independent nurse monitoring for consent orders
- Assistance in implementing consistent assignments throughout the organization
- Bringing professional services and solutions to nursing homes and long term care facilities
- Assistance in your organization's culture change process
- Development and/or evaluating your dementia care unit

Regulatory compliance through:

- Assessment of current process:
 - Observation
 - Interview
 - Data collection (quantitative and qualitative)
- Analysis of results
- Recommendations for redesign using tools and best practices
- Assistance with implementation of changes and improvements
- Evaluation

EDUCATION

Qualidigm will work with your staff in a number of ways to help long term care leaders succeed in creating working conditions that reduce turnover, improve job performance and increase satisfaction with staff and residents.
