

Hospice Services

Qualidigm assists hospice providers in dealing with important compliance and regulatory issues that impact their bottom line. Our web-based compliance software, SMARTAUDIT®, combined with our consultant's expertise ensure that your agency is protected from audit risks and able to provide timely and person-centered care.

Qualidigm offers a strategic package to assist your hospice agency with quality assurance and identification and correction of deficiencies that are directly aligned with State and Federal regulatory requirements and corresponding penalties. Our comprehensive approach to identifying barriers to regulatory compliance that impact cost and quality of care is one way you can protect your agency from audit risks.

We can help you with:

- Clinical Record Review
- Quarterly Report Review
- OBQI (with Adverse Event Management)

Other services include:

- Hospice Quality Assurance Performance Improvement (QAPI/AIM)
- Redesign of care processes to reduce hospitalizations and improve outcomes
- Improving transitions of care with Integrated Chronic Care Management
- Regulatory Compliance for successful licensed certification and accreditation audits
- Integrated chronic care management training for the palliation of persons with chronic disease

Who We Are

Qualidigm is a mission-driven healthcare consulting company that provides innovative and scientifically-based solutions to transform care and improve care delivery and patient outcomes. With nearly 200 peer-reviewed articles published, Qualidigm is recognized among the healthcare provider network as a facilitator and leader in performing peer-reviewed research, providing evidence-based education, and implementing learning sessions that foster collaboration and accelerate change.

Our professional staff has expertise in clinical medicine, quality improvement, patient safety, public health, patient-centered medical home (PCMH), care coordination, utilization review, data evaluation and analysis and patient/provider education. The staff includes Registered Nurses, Physicians, Social Workers, and many other staff with advanced degrees, e.g., PhDs, MAs, and MBAs.

Qualidigm is part of a team that is serving as the Medicare Quality Innovation-Network Quality Improvement Organization (QIN-QIO) under contract with the Centers for Medicare & Medicaid Services for New England. Previously, Qualidigm served as the Medicare QIO for the State of Connecticut charged with protecting the rights of Medicare beneficiaries and improving the safety and quality of care they receive.

We serve a diverse group of healthcare stakeholders in government, industry, and clinical practice including academic institutions, national and international healthcare consulting firms, local and national foundations, healthcare providers in all settings, payers and purchasers.

Learn More About Qualidigm's Hospice Services

Our professional hospice consultants specialize in teaching and educating nurses, focusing on improving home health provider clinical outcomes and reducing acute care hospitalizations.
