

# Medical Practice Transformation Services

## Improve your quality of care and your eligibility for recognition and enhanced compensation.

The American healthcare system continues to evolve at an unprecedented rate. Trends are occurring in the outpatient setting that impact medical practices. These include: evolving payment strategies, adoption of electronic health records, public recognition/reporting, development of Accountable Care Organizations, and a focus on patient-centered care. To help practitioners survive and thrive through these changes, Qualidigm offers a variety of training and technical assistance services.

<b>Electronic Health Records</b>	Selection and implementation of EHRs; Stage I and II Meaningful Use.
<b>Patient-Centered Medical Home</b>	Transformation into Patient-Centered Medical Homes; eligibility for new or renewal recognition by NCQA and other entities.
<b>Patient-Centered Specialty Care</b>	Transformation into Patient-Centered Specialty Practices; eligibility for recognition by NCQA.
<b>Advanced Medical Practice</b>	Team care/workflow redesign, culture/leadership, change management, data collection and analysis, identification of high risk patients, and care coordination/care transitions.

## Who We Are

Qualidigm is a mission-driven healthcare consulting company that provides innovative and scientifically-based solutions to transform care and improve care delivery and patient outcomes. With nearly 200 peer-reviewed articles published, Qualidigm is recognized among the healthcare provider network as a facilitator and leader in performing peer-reviewed research, providing evidence-based education, and implementing learning sessions that foster collaboration and accelerate change.

Our professional staff has expertise in clinical medicine, quality improvement, patient safety, public health, patient-centered medical home (PCMH), care coordination, utilization review, data evaluation and analysis and patient/provider education. The staff includes Registered Nurses, Physicians, Social Workers, and many other staff with advanced degrees, e.g., PhDs, MAs, and MBAs.

Qualidigm is part of a team that is serving as the Medicare Quality Innovation-Network Quality Improvement Organization (QIN-QIO) under contract with the Centers for Medicare & Medicaid Services for New England. Previously, Qualidigm served as the Medicare QIO for the State of Connecticut charged with protecting the rights of Medicare beneficiaries and improving the safety and quality of care they receive.

We serve a diverse group of healthcare stakeholders in government, industry, and clinical practice including academic institutions, national and international healthcare consulting firms, local and national foundations, healthcare providers in all settings, payers and purchasers.
